

Two Simple Ways to Save Money While Helping HB Huddle and the Environment:

#1 OhmConnect, #2 SkyDrop

#1 OhmConnect

What

Are you looking for a way to help the HB Huddle? OhmConnect, a home energy software company, will donate up to \$150 per year to HB Huddle for each household when they reduce their electricity usage. Join the OhmConnect “HB Huddle” team and recruit your friends, neighbors, and family to join. Our goal is to get 100 HB Huddle homes and small businesses participating, so OhmConnect donates over **\$10,000** to HB Huddle this year!

Homes/Small Businesses	Annual Donations Target	CO2 Impact per Year
50	\$5,000	11,250 Pounds
100	\$10,000	22,500 Pounds
200	\$20,000	45,000 Pounds

Why

Every time you reduce your energy use, OhmConnect will donate to HB Huddle to support more of our programs. Join the thousands of OhmConnect members generating funds for schools, environmental organizations, and youth programs.

How

Sign up easily with your Utility online account username and password, and allow OhmConnect to access your home’s smart meter usage data. No personal data will be accessed by OhmConnect. (Further details on data access can be found at <https://www.data.gov/energy/welcome-green-button>).

Then each week you will receive alerts from OhmConnect about energy-saving times called #OhmHours. An #OhmHour is when the California energy market predicts our energy grid will be overloaded with demand, and the energy regulators would prefer to compensate people for reducing consumption, because that is cheaper and prevents the use of “dirty energy” from the older power plants. So, you reduce consumption during #OhmHours, raise money to be paid to HB Huddle, and reduce your carbon footprint. OhmConnect has contracts to perform this service with **PG&E, SCE, and SDG&E**. NOTE: Only these utility customers are eligible.

Get Started

OhmConnect will instantly donate \$20 to our team when you join and an estimated \$100 over the next year on your behalf. Have your utility login and password or your utility bill ready when you go online to sign up.

1. Sign up at <https://ohm.co/65b79f4>
2. Enter your zip code, email address, and create a password to create your account
3. Connect your Utility account (just enter your username and password for your utility)
4. If you are already a member join team HB Huddle at <https://login.ohmconnect.com/team/show/3109>

#2 SkyDrop

What

SkyDrop is a key part of your Home Automation & Smart Watering solution. SkyDrop checks local weather stations hourly for real-time weather data specific to your yard. Never water when it’s raining again, automatically reduce watering on cloudy days, and save up to 30% annually on your water bill. Monitor and adjust your SkyDrop via their mobile app anywhere, anytime.

SkyDrop will donate \$10 to HB Huddle for each unit installed. With OCWD incentives, your SkyDrop unit and installation will be FREE. That is a \$299.99 value.

How

1. Contact Ryan Crawford at (775) 304-6698 or email rcrawford006@gmail.com to schedule your appointment.
2. Tell Ryan you’re a member of HB Huddle. He will then setup a time to install your free SkyDrop unit.
3. In about 90 days you will get a call from the OCWD to have your SkyDrop inspected.
4. That is all there is to it, just enjoy the savings and doing your part to save precious SoCal water.
