

The Environment Team
Presents:

THE OHMCONNECT CONTEST!

For more info on OhmConnect and how to sign up for free, please see our separate handout.

PRIZE: An EcoBee4 (value \$249)

A Smart thermostat that is easy to install. You'll be able to adjust the temperature of your home from ANYWHERE using your phone or other online device, whether you're in another room of your house or in another country. Once connected to OhmConnect, it can shut off during OhmHours so you can avoid using energy when it's coming from the dirtiest sources.

Contest Rules:

- To be eligible to win the EcoBee4, you must sign up with OhmConnect HB Huddle team by February 1, 2018 (Important notice: You are NOT officially signed up until you register your utility bill to get to Silver Status)
- Once signed up, you will earn (or lose) points depending on your energy consumption. The FIVE people (1 per household) with the most points (least usage of energy) during February and March will be eligible to win the EcoBee4
- If you are one of the five people eligible to win, you will be notified in early April, and you MUST attend the HB Huddle on April 21, 2018 to receive your prize if you win (or you may send a representative)
- From those five names, one will be drawn randomly to win the prize at the HB Huddle on April 21, 2018
- The winner must sign a letter agreeing to connect the EcoBee4 within 14 days to her/his OhmConnect account
